

***Judith (“Judy”) Tanselle,  
President***

Judy Tanselle is an experienced energy industry executive with a track record of building profitable businesses. She has over twenty years of experience in the energy industry specializing in clean energy technology, project development and coal and emissions trading, marketing and risk management. She led the start-up of White Energy’s North American operations where she was instrumental in securing key joint development agreements. Prior to joining White Energy, Judy held positions of increasing responsibility with four leading U.S. energy companies, including NRG Energy, where she was Executive Director, Coal and Emissions Trading, responsible for managing one of the largest and most diverse coal and emissions portfolios. Since late 2007, following a successful career in the power generation industry, her focus has been the commercialization of cleaner coal, biomass and other alternative energy technologies that will need to be deployed to “revolutionize” America’s energy industry. Judy currently serves on the Board of Directors for the American Coal Council and was a founding director of the Coal Trading Association. In addition to her energy career, Judy has 17 years of experience teaching mathematics at the University of Louisville and the Pennsylvania State University. She holds a Master of Science degree in mathematics with six years of doctoral studies from the Pennsylvania State University.
